At Attard's Kitchens & Cabinetry we believe the best kitchen is the one that is individually custom designed for you. We know the kitchen is the heart of your home and we strive to create the kitchen of your dreams. With careful planning and discussions, we are able to suggest innovative designs for your new kitchen whilst still maintaining practicality.

We pride ourselves on quality and provide personalised customer service. All of our joinery is custom designed and manufactured by our staff using Australian materials in our own premises, with strict quality controls.

Operating since 1989, Attard's Kitchens & Cabinetry has a well known reputation for excellence. We were proud to accept the prestigious HIA NSW (Housing Industry Association) award in 2010 for "Best Large Kitchen of the Year".
