

ATTARD'S KITCHENS & CABINERY

BALANCED BESPOKE FEATURES

A GRAND, LIGHT-FILLED SPACE

The founding director of Attard's Kitchens & Cabinetry, Michael Attard, designed this standout kitchen with the right balance of design elements to ensure that it would fit seamlessly with the magnificent, open surrounding spaces, without going unnoticed.

In response to the clients' requests, Attard's Kitchens & Cabinetry incorporated an exquisite island bench that has been crafted from bookmatched Calacatta marble from Artedomus. Acting as the focal point of the 5504mm x 4200mm space, the island bench features a waterfall end that encourages a sleek and modern aesthetic.

An abundance of storage space is incorporated into the design, including reverse storage cupboards that are housed inside the island bench. To enhance the functionality of the space, Attard's Kitchens & Cabinetry installed a concealed appliance cabinet that is fitted with LED-strip sensor lighting.

The Caesarstone 'Sleek Concrete' benchtop features a modern 50mm mitred apron edge and a matching 200mm splashback.

The large windows and an upper level above the space allow for an abundance of natural light, which minimises the need for electrical lighting. LED strip lighting with an opaque diffuser is installed beneath the overhead cabinetry to illuminate the workspaces once the sun goes down.

Key to the kitchen's streamlined yet grand appearance is the clever integration of state-of-the-art appliances, including an induction cooktop and downdraft extractor system from BORA, an energy-efficient Miele dishwasher, and a stylish Blanco sink, as well an oven and integrated fridge/freezer from Electrolux.

The concealed and integrated appliances were thoughtfully placed to ensure they are always within easy reach without causing clutter.

The cabinetry and kickboards feature a flat-panel polyurethane satin finish in Dulux 'Natural White', which delicately contrasts with the polished timber floorboards. The doors and drawers utilise a soft-close motion system from Blum for ease of use, and feature integrated handles that are custom-made by Attard's Kitchens & Cabinetry.

Specialising in the design and manufacture of high-quality kitchens and bathrooms, Michael Attard has provided a wide array of cabinetmaking solutions to the Sydney market for more than 27 years.

Attard's Kitchens & Cabinetry completes custom kitchens and bathrooms for projects throughout Sydney, as well as coastal areas. The company is able to assist with the design and construction of cabinetry for both residential and commercial properties, and also specialises in exquisite handcrafted joinery.

As a licensed builder, Attard's Kitchens & Cabinetry is able to complete any building works required for your renovation, such as wall removal or the installation of doorways, flooring, windows and skylights. With a team of specialist subcontractors ready to make your dream a reality, Attard's Kitchens & Cabinetry can project manage your entire renovation.

Attard's Kitchens & Cabinetry won Kitchen of the Year (National) at the Housing Industry Association (HIA) Awards in 2012, and has been a frequent finalist in the HIA Kitchen & Bathroom Awards and the Hills Building Design Awards (HBDA) since 2008.

With Attard's Kitchens & Cabinetry, clients are only limited by their own imagination, and the experienced designers will create a finished product that reflects the personality of the homeowners, while blending seamlessly with the rest of the home. The company forms strong, long-term relationships with clients, and a team member will be available every step of the way to answer any questions that may arise.

Attard's Kitchens & Cabinetry strives to deliver practical and affordable projects that look modern and beautiful, and integrate functional features. Whether you're planning an office renovation, a dream kitchen construction, or the installation of other joinery throughout the home, Attard's Kitchens & Cabinetry is able to cater to every client's individual needs.
